

K-Love serves us as a very important part of our lives. I know of several people in the area that listen to K-LOVE on a regular basis and we all I know would be truly affected if it was no longer available. It help many people with their relationship with the Lord. I very much think that the public would be affected by this. If it was displaced by a LPFM secular station it would be a great loss to the local community and a defeat to family programing on the radio.
